

## Screen Printed Apparel

Our Minimum Run per graphic is 36 pieces. We DO NOT print full color or photographs on shirts. If you're looking for less than 36 pieces or need "full color" printing, you'll need to find a company that does DTG (Direct to Garment) printing. They can print full color and typically have no minimums.

- Turnaround time is typically 2-3 Weeks + shipping time from date of art & payment
  - Rush orders are accepted but are subject to extra rush / shipping fees
- Prices based on ready to print art on shirts size S-XL - standard screen size (up to 11"x16")
- Sizes 2x-5x are an additional fee, as they cost more from the manufacturer
- Prices are per graphic - you can change the size / color / type of shirt through the run -
  - As long as the graphic color, placement & size remain the same
- Depending on the color of the shirt / Ink color, an underbase may be required for the printing -
  - This constitutes the addition of another color (white)

**Set-Up Fee Per Screen/Color - \$20.00**

**Sleeve & Pocket Prints add \$0.75 each**

**Ink Change Fee - \$15 Per Color \*Same Artwork, Just Changing Ink Color**

### Price For Printing - Shirt Cost Not Included:

1st Location	Number of Print Colors
